

UNIVERSITY OF TWENTE.  
**4TU**.Resilience Engineering

# TWENTE RESILIENCE MEETING & DRINKS

The background features a complex abstract design. A white boat is positioned at the bottom center, with a thick white line extending from its front towards the right edge. Above the boat, numerous thin white lines flow and curve across the frame, creating a sense of movement and depth. Interspersed among these lines are several wireframe structures, some in yellow and others in red, resembling architectural or engineering models. The overall aesthetic is clean, modern, and technical.

## PROGRAMME TODAY

- |           |   |
|-----------|---|
| 16.05 hrs | Four pitches  |
| 16.15 hrs | Two rounds of round-table discussions (15 min each) |
| 16.45 hrs | Short evaluation and questions for next meetings    |
| 17.00 hrs | Drinks  |
| 17.30 hrs | Closure   |

# PITCHES

**Mingshu Wang (ITC):**

Pedestrian dynamics and urban resilience

**Rolands Kromanis (ET):**

Resilient systems for intelligent monitoring of infrastructure

**Debraj Roy (BMS):**

Poverty traps using resilience thinking

**Carissa Champlin (4TU.RE):**

Ready, Set, Launch: The 4TU.Urban Resilience Educational Resources Platform
