

## Our Drive & Our Mission

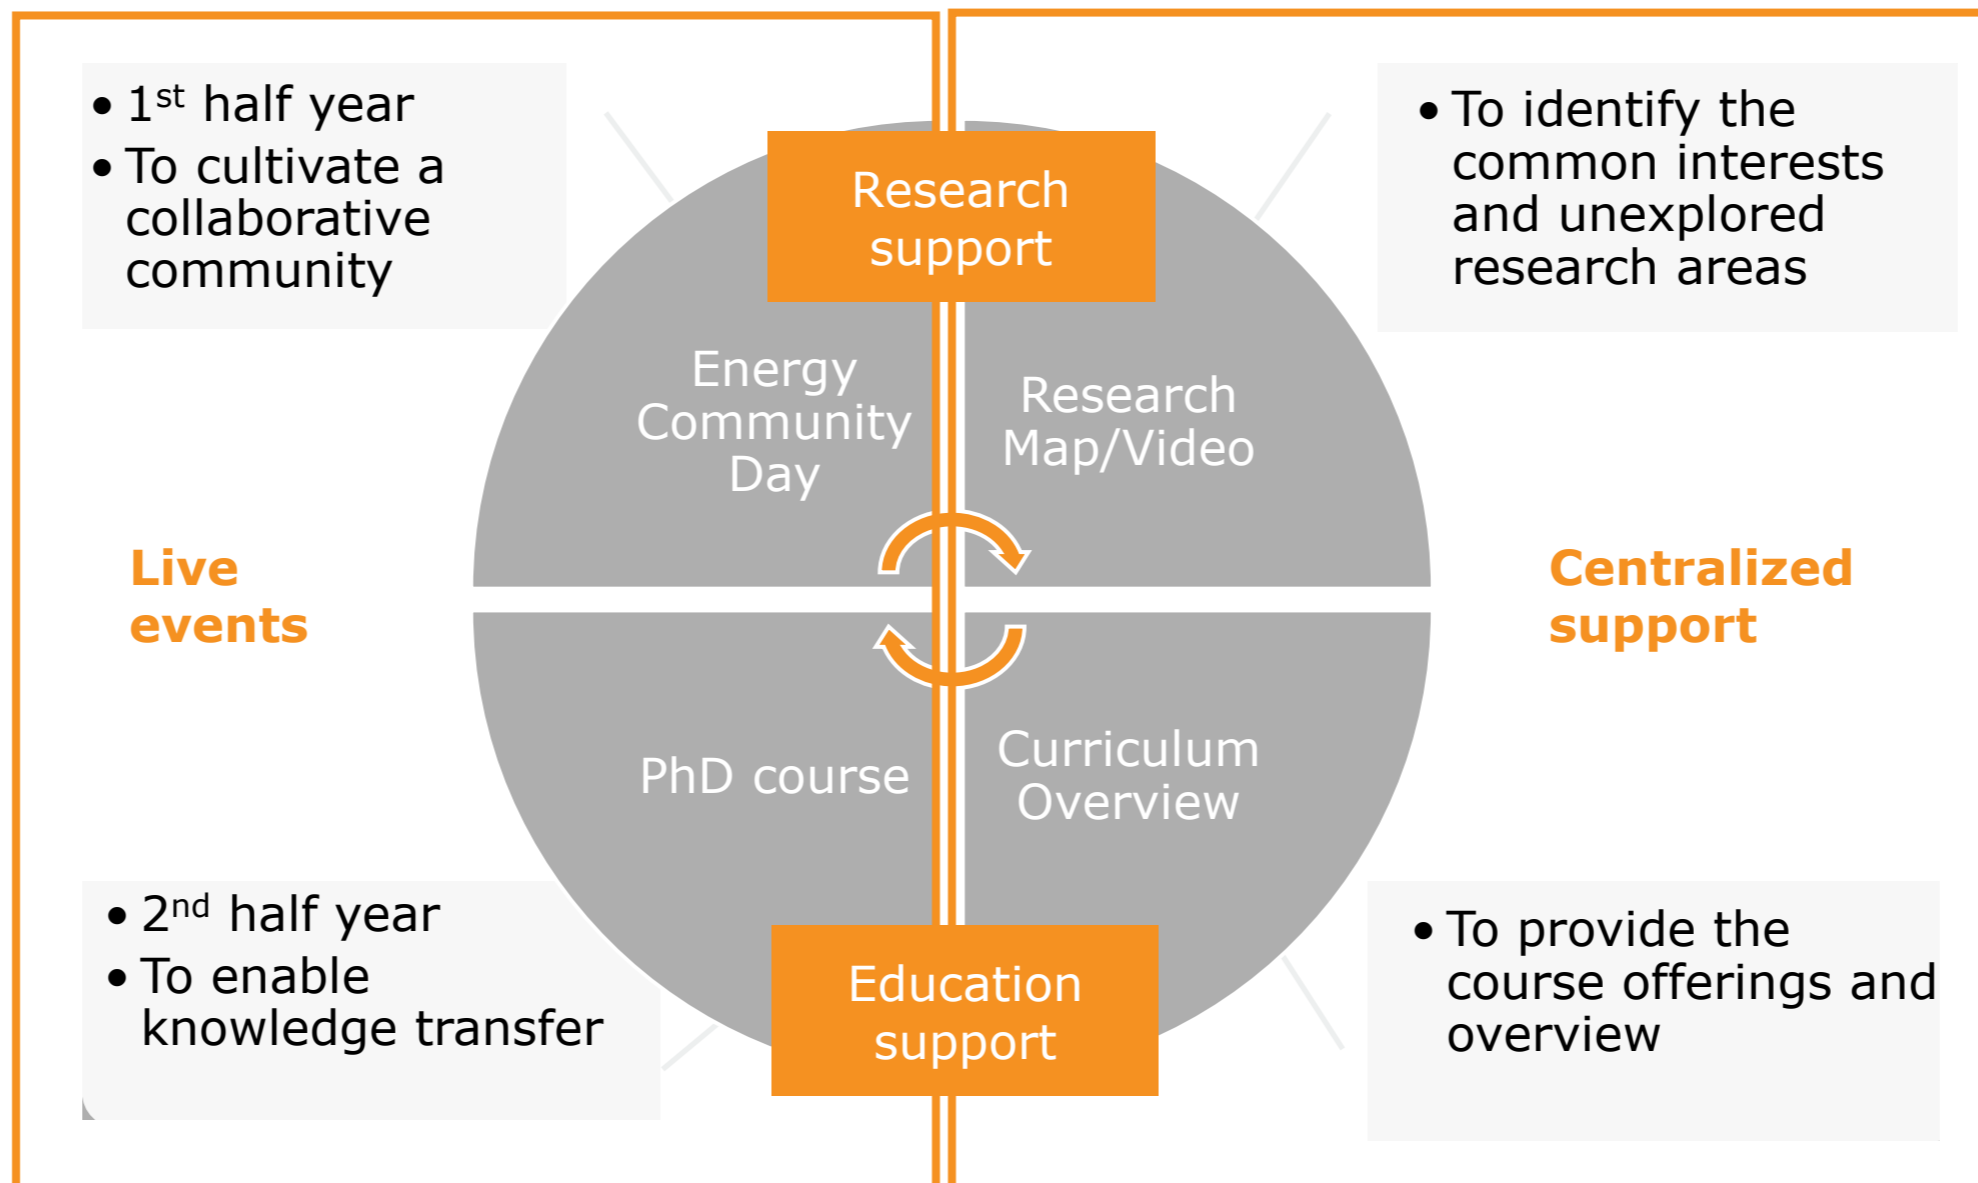

4TU.Energy strives to accelerate the society's transition to a carbon-neutral future by connecting and leveraging its energy community; and by providing centralized support to its energy research and education.

4TU.Energy will connect and build upon the individual strengths of the 4TUs and facilitate coordination and collaboration among researchers in the field of energy to accelerate the transition toward a carbon-neutral future.

### Do you know that 4TU.Energy:

- Has a Research Map depicting many disciplines, fields, and applications that together make up the community?
- Has Research Video's showing concrete examples of 4TU.Energy research?
- Has a quarterly interview about "Meet Our Energizer" to introduce researchers and stimulate new connections?
- Has funding support to "Rapid Research" and "Community Building", also together with 4TU.NIRICT?

### Will you join 4TU.Energy for:

- The annual Community Day that serves as a platform for researchers to forge connections, expand their professional network, and seek inspiration from their peers?
- The annual PhD course that aims to build the capacity of young researchers to learn from and to reflect on timely energy topics?
- Any other scientific activities or creative ideas that benefits connecting and leveraging the energy community?

## Our Partnerships

## Our Goals (4C)

- Connect**
  - research capacity | smart brain | energy net
- Coordinate**
  - project | program | investment
- Collaborate**
  - between 4TU | between institute | between industry
- Create**
  - opportunity | atmosphere | new ideas

## Our Organization Team

Role	Name	Located at
Board	Mark Bentum (t.b.c.)	TU/e
	Bram de Vos (t.b.c.)	WUR
	Bart Koopman	UT
	Fred van Keulen	TUD
Management Team	David Smeulders	TU/e
	Harry Bitter	WUR
	Mina Shahi	UT
	Peter Palensky	TUD
Young board	Maja Rücker	TU/e
	Akbar Asadi Tashvigh	WUR
	Amir Mahmoudi	UT
Advisory board	Pedro Vergara Barrios	TUD
	Mark Boneschanscher	TU/e
	Annemiek ter Heijne	WUR
	Elham (Eli) Shirazi	UT
Communication advisor	Maaïke Damen	TUD
	Nienke Nijnehuis	Freelance
Coordinator	Sha Lou	TU/e

## 4TU.Energy

The environment where researchers in energy are connected and are offered opportunities to boost collaborations.
