

Educating the Entrepreneurial Engineer

OCTOBER 2022

Dr. Ufuk Gur/ TU Delft IDE-4TU CEE

Why EEE?

→ 01

"entrepreneurship" holds a contextual meaning and need to be redefined by its raison d'être for engineering education. "

→ 02

"engineering educators benefit because of the increase in student motivation for learning the subject, allowing students to see the value and understand the practical purpose of the topic "

→ 03

"the revolution in engineering education is coming and engineering educators need to be prepared to explore and promote new ways of teaching and learning."

The Entrepreneurial Engineer

Educators of Entrepreneurial Engineer

- Who are we?
- What do we do?
- How do we feel about what we do?
- Where do we belong?

Changing Role of the Educator for EE

The recruitment and retaining of external stakeholders

From giving answers to giving questions

From directing to supporting

From teaching to facilitating
