

4TUs FOR ENERGY ACCESS

2.4 BILLION PEOPLE

STILL USE INEFFICIENT AND POLLUTING COOKING SYSTEMS

[2020]

Target

7.1

By 2030, ensure universal access to affordable, reliable and modern energy services

TU Delft | Global Initiative

WHAT IS “4TUs FOR ENERGY ACCESS”?

And many more...

WHAT CHANGE DO WE WANT TO BRING TO THE CURRENT SITUATION?

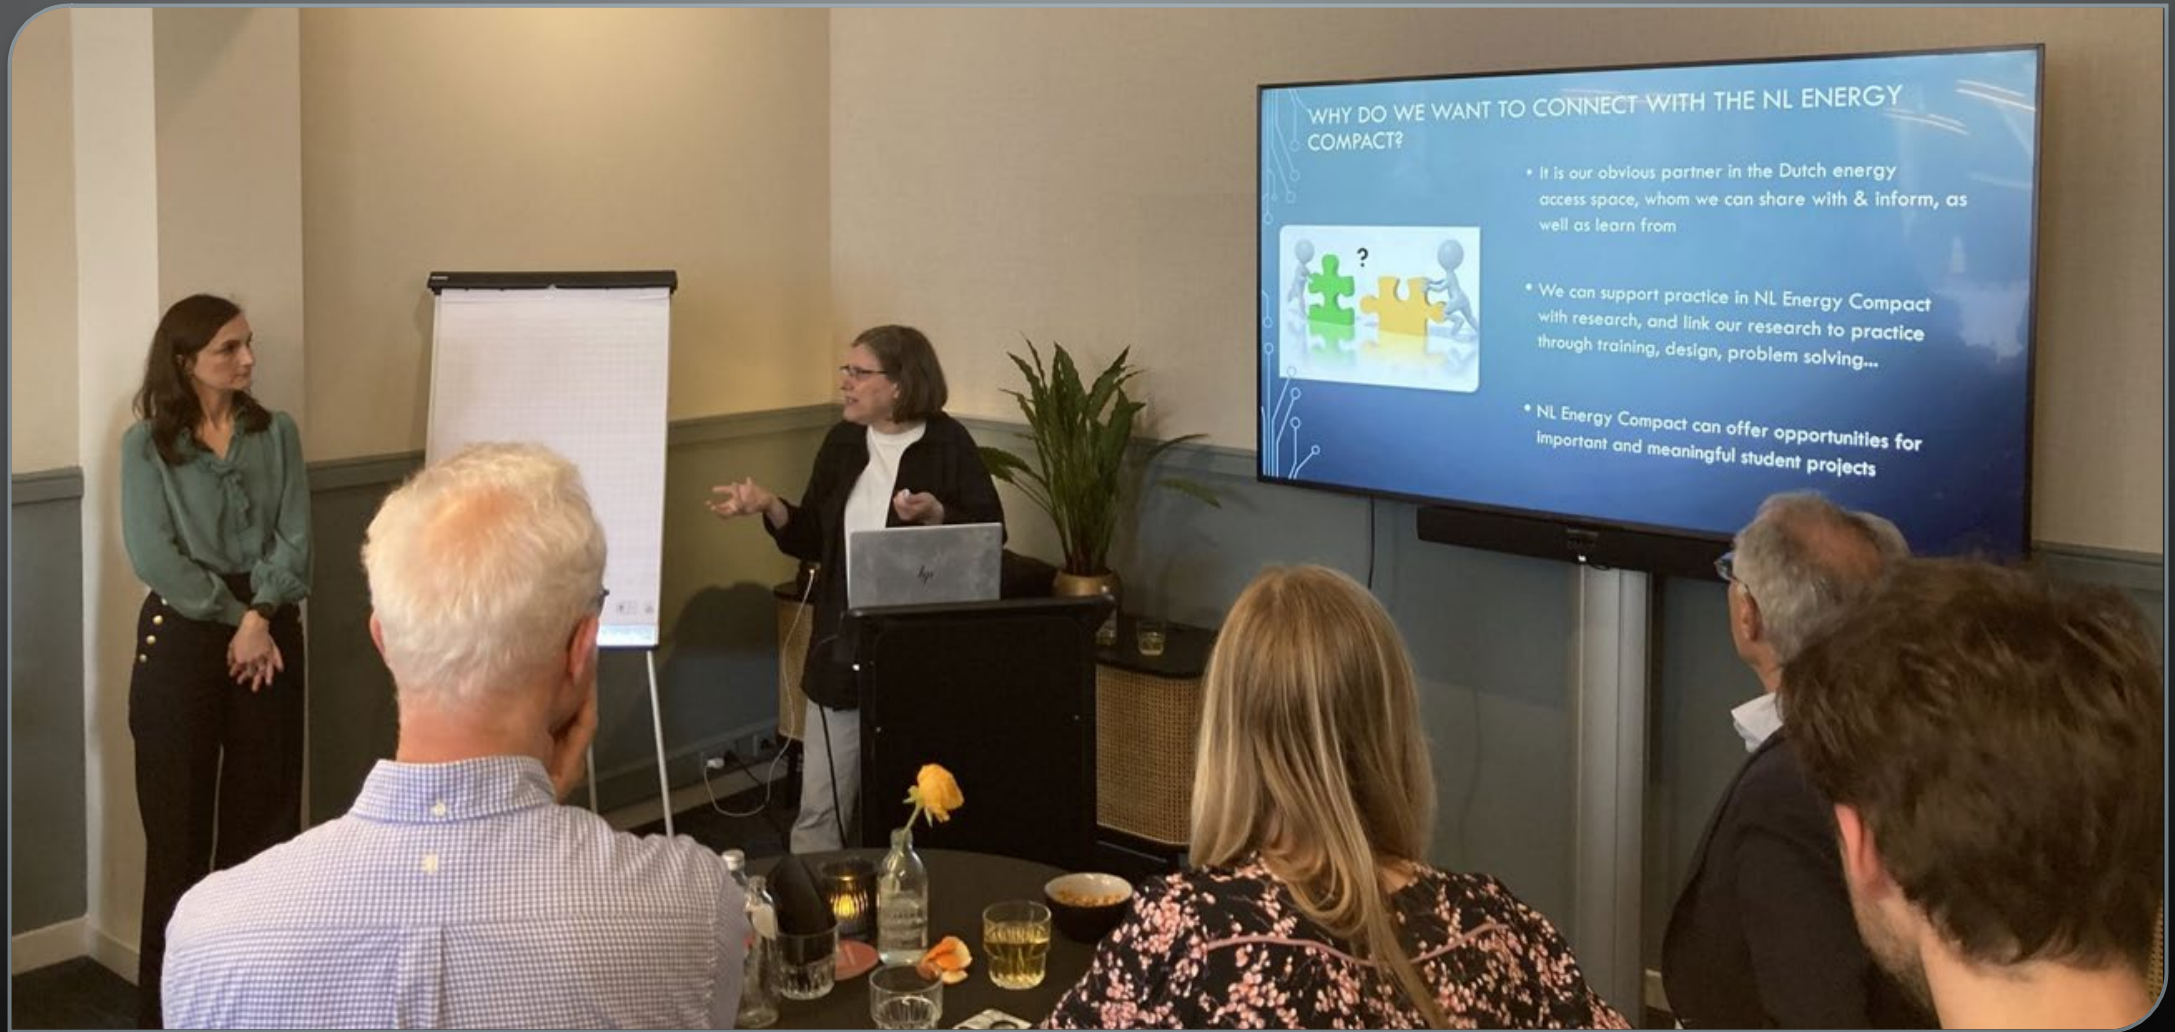

- More staff and resources
- Impact-driven knowledge development and education
- Increase knowledge adoption and learning through co-creation

HOW DO WE WANT TO DO THAT?

- MSc theses on energy access
- Joint course on energy access and sustainable development, 1 joint MOOC
- PhD candidates for longer-term research
- Outreach of academic output
- At least 1 local field lab with a partner institute per region

Launch meeting on the 20th of April 2023, in Utrecht

WHAT DO WE NEED?

- Insights and experience in the field, to keep us strongly focused on core challenges
- Joint efforts in lobbying for academic work with impact
- Network
- Explore joint opportunities

For all these reasons, we need: *a seat at the table*

UNIVERSITY OF TWENTE.
